Lap Swim Etiquette

- 1. A swimmer entering a lane being 'split' by two people (each swimming up/back on their own side) should be sure before s/he begins to swim that s/he alerts both individuals to the need to change to a 'circle' format (everyone swimming counterclockwise on the right side of the lane). Note: A lane can have up to six people when circle swimming.**
- 2. Swimmers resting or otherwise waiting at the wall should stay far to one side of the lane.**
- 3. Swimmers arriving at a pool should do three things before getting in the water: Make note of "Fast, Medium, and Slow" lane designations. Spend a few minutes observing and roughly timing the per-lap pace of swimmers already in the pool. Select a lane containing swimmers moving as closely as possible to the pace that one realistically expects to swim throughout his or her entire workout.**
- 4. An overtaking swimmer should gently but distinctly touch the feet of the swimmer being overtaken.**
- 5. Swimmers being overtaken should never stop in the middle of the pool, nor should they continue beyond the next wall.**
- 6. Swimmers being overtaken should not attempt to speed up (or slow down) once 'tagged'.**
- 7. A lead swimmer who feels a touch on the feet from an overtaking swimmer, should continue to the next wall, then stop in the corner of the lane to let faster swimmer(s) past.**
- 8. Swimmers enjoying a draft behind a strong lead swimmer, but who are just barely able to hold that pace should think twice before tagging the leader's toes and requesting to move ahead.**
- 9. Overtaking swimmers should not attempt to swim 'wide' past a slower swimmer. Be aware of how 'wide' stroke mechanics may impact adjacent swimmers.**
- 10. Don't 'water-run' or 'aqua-jog' in lap lanes—unless the pool is nearly empty.**
