

COMPLETE THE DREAM

YMCA of Martha's Vineyard
Capital Expansion Campaign

THIS IS Y

The YMCA of Martha's Vineyard is the cornerstone for delivering health and wellness programming to people of all ages, abilities and backgrounds. Our indelible impact extends well beyond our walls and geographic location. We nurture the potential in children and teens, keep seniors active and connected, strengthen families and join forces with like-minded organizations for the betterment of our community.

The current YMCA facility was built over a decade ago by visionary leaders who inspired the generosity of those who live and visit the Island. With capacity at a maximum and growing needs rapidly changing, we must add space to one of the most important community projects in the history of Martha's Vineyard.

To allow for future generations to care for themselves and the broader community, the YMCA has launched a \$29 million capital campaign to double the building's existing footprint and enhance vital programming. This expansion will consist of three thoughtfully laid out levels, each designed to maximize efficiency, provide program flexibility and encourage activities that foster leadership skills, physical movement, social-emotional health and community partnerships.

**Please join us in becoming part of the YMCA of Martha's Vineyard's story.
Help change someone's tomorrow, today—COMPLETE THE DREAM.**
